Hello!

Here is the breakdown of our CES assessment scores. I have attached the excel sheet with the breakdown and a description that describes what it means. A deficit of the CES assessment system is that the questions are based on a person's self-report and often we find that people do not disclose all the details of their circumstances (mental health/substance abuse difficulties, length of homelessness, domestic violence, etc.). The score is often not completely reflective of the population we are serving. There is flexibility in the system to allow our staff to communicate with the CES matcher and advocate for a higher level of service even a person does not score high on the assessment. Please call or e mail me if you have any questions. Thank you so much!!
